

Development Summer Camp

For the Elderly

Share the Experiences

Experience, do you feel that through your life you have been through a lot. Such as your first pay day, the day you got married, your honey moon, the growth of your child and then the growth of their child and most importantly your first kiss. It seems that as time passes, stories about our life seem to pile up. Some to be kept secret and others to be told. This summer camp will call together a group of affectionate people, who all have gone through their own share of experience and travel together to pleasant, comfortable places and have a delightful chat.

There, one can enjoy the the company of new people and share stories about each others life's. This meeting can allow you to evaluate your life's, look at all the accomplishments that have been made and recollect all the happy memories you have and cherish it till the end.

Integrity vs Despair

During our lives we come across many happy events. However, we also go through heart breaking events. Such as the loss of a loved one. We hope many get over their sorrows and finally move on, nonetheless there are people who still morn. Please come to us. We welcome you in open arms and together, we can eventually deal with the pains.

Individuals can write letters to their lost ones to say what has been happening, talk about happy memories you shared together and finally say our farewells and promise to never forget the memories.
